NextGen® Patient Portal

WHAT IS A PATIENT PORTAL?

A patient portal is a personalized, secure website that enables you to manage healthcare interactions. This convenient online connection puts you in control of your healthcare from any web enabled device.

WHY ACTIVATE YOUR PATIENT PORTAL ACCOUNT?

A patient portal offers you the benefit of viewing your health records, access visit summaries and other documentation.

WHAT KIND OF RECORDS WILL I HAVE ACCESS TO THROUGH THE PATIENT PORTAL?

You'll have access to visit summaries, visit attachments, medications, appointment history and any other information your care team has made available for you to view.

WHAT CAN I DO WITH MY HEALTH RECORDS?

You can easily review, download, or share your health records with other providers.

WHO CAN SET UP A PATIENT PORTAL ACCOUNT?

If your healthcare provider offers patient portal access, you can set up a patient portal account. Reach out to your practice to get started.

HOW DO I ENROLL IN THE PATIENT PORTAL?

Do it in 3 easy steps:

1. Provide a valid email address to your practice. You'll receive an invitation to enroll.
2. Create a username and password, then follow onscreen prompts to activate your account.
3. Use your username and password to securely stay in touch with doctors and access your health information anytime, anywhere.

HOW DO I ACCESS MY PORTAL ONCE I HAVE CREATED MY ACCOUNT?

Once you have enrolled, you can access the patient portal from your practice's website. The portal is also accessible from your practice's email notifications.

CAN I SHARE ACCESS WITH A TRUSTED REPRESENTATIVE?

You can invite trusted representatives to access your patient portal in your "Profile." If they do not have a patient portal account, they will be prompted to create one. From there, they can toggle between their own account and any accounts that have been shared with them.

HOW CAN I ACCESS A PATIENT PORTAL FOR MY CHILD/UNDERAGED MINOR?

Your practice will send a parent/guardian invitation to view and manage your child's account.

CAN TWO PARENTS/GUARDIANS LINK TO THE SAME CHILD'S ACCOUNT?

More than one parent can have access to their child's information. For example, divorced parents will have their own access to view their child's portal account.
